A photograph of a luxurious outdoor swimming pool. In the foreground, two white, modern lounge chairs are partially visible. The pool has a blue mosaic tile border. A waterfall feature with a dark, textured stone face cascades into the pool. In the background, there is a large, modern building with a unique, stepped design, and a row of smaller, traditional-style houses along the water's edge. The sky is clear and blue.

*Turn your home into a luxurious dream*

*Envision and design your space with us...*

# WELCOME TO FUTURESAPES POOLS AND LANDSCAPING

## From ordinary to amazingly wonderful

We're a swimming pool & landscaping company in Dubai, having over five years of expertise in making your dream swimming pool, backyard, and landscaping into a reality.

## INFINITY POOLS

**PROJECT : RESIDENTIAL VILLA, PALM JUMEIRAH**

An infinity pool or infinity edge pool is a reflecting or swimming pool where the water flows over one or more edges, producing a visual effect of water with no boundary.

Such pools are often designed so that the edge appears to merge with a larger body of water such as the ocean, or with the sky and aim to achieve an illusion of a never ending ocean from right within your home.

©FutureScapes Project Image

FutureScapes aims to achieve just this with the utmost perfection and balance, without ever compromising on quality and efficiency.

At FutureScapes, we provide design consultation, 2D and 3D visualization, construction, site supervision, maintenance and more to make sure your vision looks no different in reality.

We stay with you every step of the way and then afterward to ensure your pool remains that way. Ensure a luxurious backyard for your stay and enhance your lifestyle with us.

©FutureScapes Project Image

## SKIMMER POOLS

### PROJECT : RESIDENTIAL VILLA, MEADOWS 2

Pool skimmers are designed to draw water from the surface and suck it through the pool's filtration system.

About the top 1/8 inch of water is drawn into the skimmer helping remove the contaminants and debris such as sunscreen, hair and leaves from the pool before they sink to the bottom

## OVERFLOW POOLS

PROJECT : RESIDENTIAL VILLA, VILLA NOVA

To create this beautiful lake effect, the water must spill over the whole perimeter of the pool. We can do this by installing a filter channel that skirts the whole pool and that constantly collects water.

If you look closely, you will see water always spills over an edge that has a slight inclination. The grids can be exactly the same color as the edge in order to obtain 100% esthetic coordination. Overflow pools constantly and completely renew the water in a short period of time. This helps keep the water clean, transparent and free of impurities.

## FUTURISTIC POOLS

PROJECT : RESIDENTIAL VILLA, ARABIAN RANCHES

Futuristic pools are the solution to ever increasing demand for innovative and unique pool designs in homes.

Our design team customizes swimming pools to your aesthetic and lifestyle, giving you a unique and one of a kind design, unlike anything you've seen.
